

## SPECIAL CONSTRUCTIONS.

### Uncompromising. To the point.

Based on our experience from more than 385 years company history we know that standard solutions do not always fit. The requirements are changing, and only those who are innovative and flexible are on the forefront of the market. We align our products exactly to your requirements and thus provide tailor-made solutions. Our state-of-the-art machinery, large hall and crane capacities and the interdisciplinary know-how of our employees make it possible.

#### The products.

Our range of special constructions include the following types:

- Silencers
- Sterilisation chambers
- Pressure chambers
